## The **Eagle** RV Satellite System is **“Simply the Best”**

The *Eagle* provides a robust platform with features designed for years of performance and reliability.

- ❖ 70cm reflector on all models
- ❖ Compatible with all DirecTV Systems
- ❖ Compatible with all Dish Network Systems
- ❖ Triple Sat, quad output, xKu LNB for SHAW
- ❖ All systems are HD and Ultra HD (4K)
- ❖ All systems have GPS
- ❖ Mounts are completely gear driven
- ❖ 12VDC operation
- ❖ Weighs less than other systems in the industry (less than 39 lbs.)
- ❖ Stowed height is 8½ inches (lower than most air conditioners)

Unlike other Auto-Stow satellite systems in the market, the Eagle can be changed from one satellite provider to another by just changing the LNB, arm, and software. The Eagle is also the only system that does not need to be taken off the RV to troubleshoot or fix!!!

- Free Technical Support Hot Line  
801-895-3362

### System Versatility

Want to change service Providers? Don't purchase a whole new system, simply replace the LNB Arm Assembly and LNB. Then change the software in your Eagle Controller by downloading new software from our web site [www.rfmogul.com](http://www.rfmogul.com) onto your USB Thumb Drive.
